- HTML, CSS, JavaScript, jQuery, AJAX, Git
- Python with Flask, Django
- Ruby on Rails
- AngularJS, ExpressJS, NodeJS
- MySQL, MongoDB
- AWS/Amazon EC2 Instances, Heroku, GitHub

Experience

Freelance Web Developer, 2017 – Present

Provide range of services from interface UI/UX design to backend feature implementation and debugging.

Coding Dojo
Resident Full Stack Developer, 2016-2017

Successfully fulfilled TA (teaching assistant position) requirements and interview, receiving strong support from instructors. Worked with teams to on solving daily algorithm challenges. Learned 3 full language and technology stacks in a fast-paced environment and implemented skills gained from each stack by building & deploying web applications from the ground up.

WCH Group, Inc.
Sales, Product Merchandising & EDI Coordinator, 2014 - 2016

Trained new and temp employees on EDI document & order processing procedures. Provided daily assistance and support to company's CEO (Head of Sales) as well as to the Merchandising and Production department manager. Quickly learned and exceeded training knowledge of company's SAP ERP system and integrated EDI technologies, optimizing previously established reporting capabilities by learning & utilizing SAP Crystal Report software to create and integrate custom reports into existing system.

The Dependable Companies, DDC
B2B Account Representative, 2012 - 2014

Primary contact and advocate for some of the company's largest business accounts. Communicated client's project specifications while working with department managers to analyze cost estimates, time, materials and labor needed to find best solutions for client's requests or needs. Coordinated all aspects of client's inventory management, including storage, pick n' pack procedures, as well as for multi-store order distribution schedules, supply chain compliance requirements, product and packaging QC inspections & 3rd party audits.

Lucas Design Intl
Sales & Production Assistant/ Account Manager, 2012 - 2014

Provided daily support and assistance to VP of International sales and sales team reps. Communicated directly with supply chain buyers. Created presentation materials and product displays for various events, meetings and tradeshows. Managed overseas factory product manufacturing, being involved in all aspects of the product life cycle. Assisted designers on packaging design revisions, creating new design specs in Photoshop, performing QA tests and coordinating QC inspections of TOP samples.
